To get started, you'll need login details, which your club records officer can provide. Once your email is registered, Golden Records will send you an activation email. Important Information to Note

- Double rounds, such as Double York or Double American, are only logged for scorekeeping purposes and are not eligible for classification or handicap adjustments. To include these options, you must enter each single round individually.
- Metric Distance Scores require shooting a complete 12-dozen WA1440 or metric round to qualify; partial rounds, such as 3 dozen arrows at metric distances, do not meet the requirements.
- The Frostbite Round consists of 3 dozen arrows shot at 30 metres using an 80cm target face. It is held outdoors between October and March, but scores from this round do not qualify for classification or handicap adjustments.
- For 252 Imperial Distance Scores, achieving 252 points in a 3-dozen imperial-distance round earns a recognition award. However, these scores are excluded from classification or handicap updates.
